

Technical Architecture Document (TAD)

Table of Contents

Prerequisites & Functional Breakdown

- [User Stories](#)
- [Functional Neighborhoods](#)
- [Microservices Architecture Diagram](#)

Authentication System with OIDC

- [Authentication System with OIDC](#)

Inter Microservices Communication

- [Inter Microservices Communication](#)

Authorization System

- [Authorization System](#)

Logging and Monitoring

- [Logging and Monitoring](#)

Production-Ready System

- [Management of Data Security, Backup, and Restore](#)
- [Management of Observability and Services Supervision](#)
- [Management of Infrastructure High Availability](#)
- [Target Diagram](#)

Search Engine

- [Functional and Technical Proposal](#)
- [Mockup of Different Phases](#)
- [Technical Stack and Indexing](#)

Management of Platform Security Issues

- [Security Architecture](#)
